## TCP/IP

TOTAL POINTS 3

1. Which of the following is an example of a network layer (layer 3) protocol?

1 / 1 point

- ☒ IP
- ☐ TCP
- ☐ UDP
- ☐ Ethernet

Correct

Nice job! IP, or Internet Protocol, is the most common network layer protocol.

2. What's the difference between a client and a server?

1 / 1 point

- ☐ A server requests data, and a client responds to that request.
- ☐ Clients and servers are different names for the same thing.
- ☒ A client requests data, and a server responds to that request.
- ☐ Clients operate on the data link layer, and servers operate on the network layer.

Correct

Wohoo! You're correct.

3.

1 / 1 point

Which of the following are examples of layers of our five-layer network model? Check all that apply.

☒ The physical layer

✓ **Correct**  
Great work!

☒ The transport layer

✓ **Correct**  
Great work!

☒ The application layer

✓ **Correct**  
Great work!

☐ The presentation layer
