# Computer Architecture

**TOTAL POINTS 2**

---

1. What are the four layers of the computer architecture?

   **1 / 1 point**

   ○ Hardware, Windows, Software, User

   ◉ Hardware, Operating System, Software, User

   ○ Binary, Hardware, Operating System, Software

   ○ Computer, Operating System, Software, User

   ✓ **Correct**

   Great job! The layers of computer architecture are the hardware, operating system, software, and user layers.

2. Write a paragraph on examples of abstraction that you encounter in your day-to-day life. For example, driving a car is an example of abstraction, you don't need to understand how a car works underneath the hood in order to drive one.

   **1 / 1 point**

   > Typing an email in my phone and sending it to my boss. It just happens, I pay no attention or little understand how it all works, I just expect it to work.

   ✓ **Correct**

   It's amazing how often we use abstraction in our daily lives, without even realizing it. Thank you for submitting your response to this prompt. I encourage you to think of other ways you use abstraction in your daily routine. This habit will help as you prepare to become an IT Support Specialist!
